

Owner Management - Requirements Specification

TRACE demo fixture - synthetic requirements (not a real product spec)

1. Scope

This document specifies requirements for the Owner Management feature of the PetClinic system: registering and viewing pet owners.

2. Functional Requirements

REQ-1 (telephone): Owner.telephone MUST support up to 20 characters to allow international phone number formats (country code + number).

REQ-2 (email, NEW POLICY): Every Owner MUST have an email address. The email field is required and must be validated as a well-formed address.

REQ-3 (name): Owner.firstName and Owner.lastName are required, max 30 chars.

3. Notes

The email requirement (REQ-2) is a newly introduced policy and may not yet be reflected in the current API specification, source code, or database schema.
